EVERGREENS

1934

FERNDALE NURSERY
ASKOV, MINNESOTA

IT'S NOT A HOME UNTIL IT'S PLANTED

INVITATION

We extend to all a cordial invitation to pay us a visit during the Summer months. We are located 100 miles north of the Twin Cities and 65 miles south of Duluth, 9 miles off U. S. Highway No. 1. You will be delighted and feel well repaid for the time spent in visiting the Ferndale Nursery. Bring your picnic lunch if you like. We have picnic tables to be used for such occasions. The Kiddies will enjoy the merry-go-round and teeter board, and Mitzi, the little Toy Fox Terrier, who is always ready to play ball.

Open every day in the week. You are welcome whether you come to buy or just visit.

GUARANTEE

We guarantee all stock furnished by us to be first class, healthy and free from injurious insect pests and true to name, and stock found otherwise will be replaced free of charge.

We do not guarantee plants to grow after planting. There are so many causes for failure of plants to grow over which we have no control that we can assume no responsibility after stock is delivered. Claims for unsatisfactory stock will be entertained **ONLY WHEN MADE IMMEDIATELY AFTER ARRIVAL** and will then have our careful consideration.

RISK

We deliver all stock to carrier lines in good condition and our responsibility ceases upon our receipt of bill of lading. Claims for damage to goods in transit must be filed with forwarding agency on arrival.

SHIPPING INSTRUCTIONS

Customers should give explicit forwarding instructions with order. Unless such instructions are given we shall forward by such method as in our judgment will be most satisfactory. With orders to be forwarded by PARCEL POST sufficient funds to cover forwarding charges must accompany order otherwise order will be forwarded by express collect.

BOXING AND PACKING

Evergreens dug with earth ball on roots, when forwarded by freight or express require substantial boxing and crating. A nominal charge to cover cost of material and labor will be made for this service. Trees called for at the nursery, to be taken away in auto or truck will not require boxing.

TRUCK DELIVERY

We are in position to make truck delivery to any point within a radius of 250 miles. On orders for full truck loads the cost of this service will usually be less than the expense of boxing and freight charges, and has the added advantage of having trees delivered in first class order whenever ready to plant. We will gladly furnish estimate of cost of truck delivery to any point within 250 miles of Askov.

PRICES

You will find prices quoted in this catalog to be at rock bottom, and we reserve the right to change prices without notice. Should further dollar devaluation take place we will be obliged to cancel all prices herein quoted.

Hardy Outdoor Ferns

Ferns planted among your shrubbery, in the perennial border, or in the foundation planting around your house, especially on the north and east side or under tall trees, bring to your home a fragrance from the wild woods, in some of nature's most beautiful creations. Plant in groups of at least 3 to 5 each of each variety, scattered at irregular distances.

Cultural Directions

These hardy outdoor Ferns do not make satisfactory house plants; they will do best in shade or half shady spots in the garden and mixed in between shrubs in foundation planting on the east and north sides of buildings. Some of these, like the Osmunda, Claytoniana, Lady and Sensitive Ferns and Ostrich Fern will do reasonably well in considerable direct sunlight, but will fade earlier than when planted in shade or half shade. They do best in light soil containing much vegetable matter or humus and covered with rotting wood shavings, peat or straw, which keep them from sprouting too early in the spring, preventing a late night frost from killing the young fronds.

Hardy Ferns should be planted when dormant any time between Sept. 1st and July 1st. They prefer a settled foundation and cold feet. If late spring planting is followed by a dry, hot summer the fronds are likely to dry up in the middle of the summer the first season.

On arrival it will do them good, especially in the spring, to dump them in a pail of water for a day or more before planting. Plant crown level with the ground and give them a good soaking of water to settle the soil solidly among the roots. Then level off with dry soil or sand and mulch to preserve moisture and keep sun and wind out. One or two good soakings of water later will benefit but is not necessary, unless in a very dry season. Do not sprinkle; a light watering will do more harm than good.

Frost will not hurt the roots, but will kill the fronds. They will come back either the same or next season. Neither will frost hurt the roots in transit; they can safely be shipped during the winter, and if frozen on arrival, unpack and lay them on the ground in a shady place and cover with any kind of damp material and let them freeze. They will keep well until you are ready to plant.

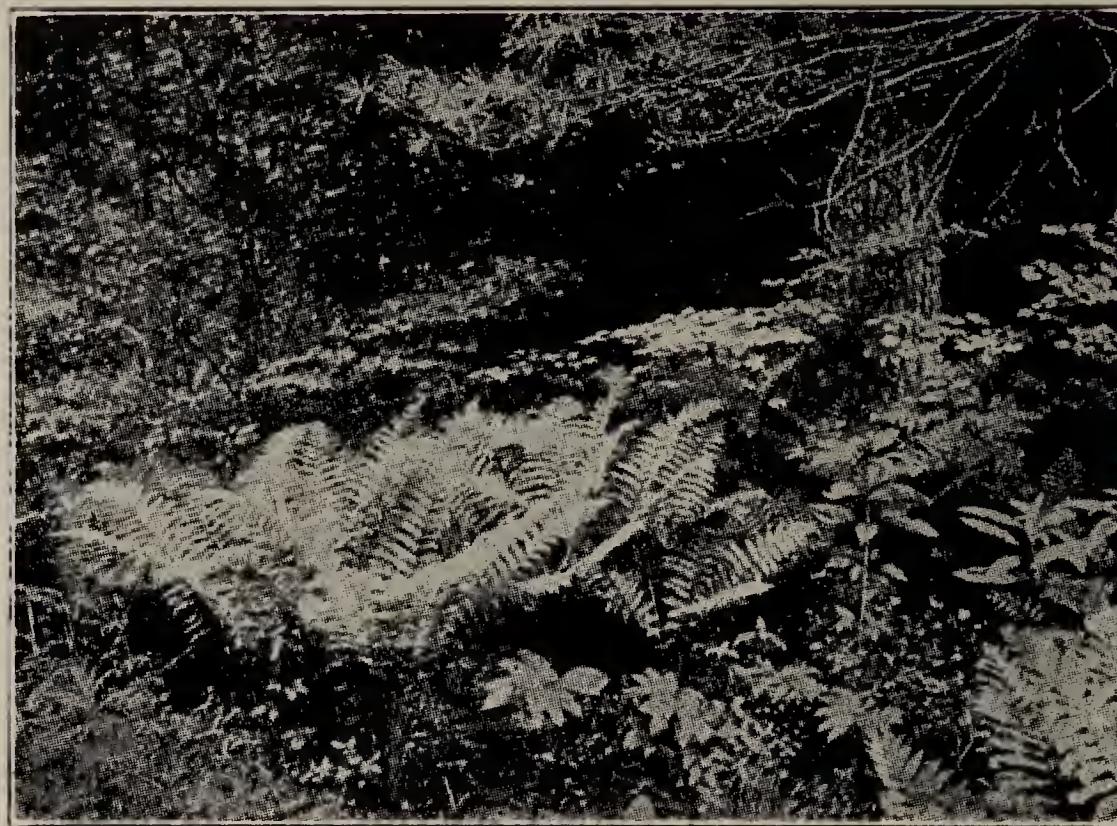

Of all the Hardy Ferns the Ostrich Plumie, also called the Palm of the North, is perhaps the best as it grows the tallest and fastest of any Fern. It often has as many as fifteen fronds gracefully arranged, presenting an object more beautiful than many varieties of palms. The fronds, under favorable conditions, attain a length up to 4 feet.

Lady Ferns. (*Asplenium Faemina*). A large handsome Fern—a wood and roadside Fern presenting many varying forms, is of a distinct type from the Ostrich.

The Osmunda Claytoniana or flowering Fern is clothed with loose wool when unfolding its fronds, which sometimes under favorable conditions attain a height of more than four feet; is beautifully cinnamon colored. This variety will also do well in the open or dry shady places.

These three Ferns represent three distinct types. They are easy to establish, and will come back stronger year after year. They will grow in common garden soil, which can be improved by addition of some leaf mold, muck, or pulverized peat. After planting, and every fall, give a mulch of leaves, straw or anything to keep them from sprouting too early in the spring and to prevent young fronds from being nipped by a late frost. The mulch will also help to preserve moisture.

HARDY FERNS

A Fern Bed for Only \$5.00

COLLECTIONS OF HARDY FERNS

These collections are recommended for special conditions as stated below.

We offer these collections for \$5.00 each parcel post prepaid, or one-half for \$3.00.

By express not prepaid, each collection \$4.00, or any one-half \$2.25.

You can order by number and say one or one-half collection and we will make no mistake.

We have these Ferns dormant almost up to July 1st.

No. 1.—General collection of the three varieties that have given universal satisfaction under all conditions anywhere, 8 Ostrich Plume, 4 Osmunda, 10 Lady Ferns, 2 Evergreen Ferns.

No. 1-A.—General collection that perhaps will give better satisfaction than No. 1 in that it includes 4 Evergreen Ferns, the fronds of which keep green all winter, 8 Ostrich Plume, 8 Lady Ferns, 4 Evergreen Ferns, and 4 Sensitive Ferns.

No. 2.—Special for dry shady places. 8 Lady Ferns, 6 Hay-scented, 6 Leathery Wood Ferns, 4 Interrupted Ferns.

No. 3.—For moist shady places, 4 Maidenhair, 8 Evergreen Ferns, 4 Ostrich Plume, 4 Cinnamon, 4 Lady Ferns.

No. 4.—For wet ground, 8 Sensitive Ferns, 6 Royal Ferns, 6 Evergreen Wood Fern, 4 Marsh Shield Ferns.

We shall be pleased to quote you special prices in lots of one hundred, one thousand, and ten thousand—not prepaid.

One hundred or more, not less than 10 of any variety, your selection, 10% less than 10 rate.

The letter R means adapted for Rockery, S for Shade, B for Border, M Moist Soil, O Open Sun.

Maidenhair Fern

American Maidenhair. (*Adiantum Pedatum*)

—RS—The black wiry creeping roots lie right at the surface. They branch freely if the roots are lightly covered with leaf-mold or pulverized peat. The plants should be kept fairly moist, at least the first year. They are at home in shade and on rocky hillsides. Each 20c, 3 for 50c, or 10 for \$1.25—Prepaid each 30c, 3 for \$1.00, and 10 for \$2.00.

Beach Fern. Each 35c, 3 for 75c, 10 for \$2.00—Prepaid each 45c, 3 for 90c, 10 for \$2.50.

Brittle Bladder Fern. (*Cystopteris bulbifera*)

—R—At home on wet rocks, preferring limestone. Fronds 1 to 3 feet. Each 50c—Prepaid 60c.

Christmas Fern. (*Polystichum acrosticoides*)

—RS—The fronds grow from 12 to 30 inches tall. It is indifferent as to soil, either moist or dry. Prefers shade. Plant the crown just at the surface. Each 20c, 3 for 50c—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Cinnamon Fern. (*Osmunda Cinnamomea*)

—M—A large fern growing in a crown, 2 to 5 feet high, 8 inches wide. Beautiful cinnamon-colored leaves. This will thrive in quite wet soil or moist shady places, also in peat or common garden soil. Each 20c, 3 for 50c, 10 for \$1.50—Prepaid each 40c, 3 for \$1.00, 10 for \$2.00.

Clinton's Wood Fern. (*Dryopteris clintoniana*)

—MS—A large fern of Christatum, attains a height of two feet or more when in moist rich soil. To produce massed effect it should be planted a foot apart, the crowns level with the surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Crested Wood Fern. (*Dryopteris cristata*)

—MBS—Grows wild in rather wet, shady places. Fronds 10 to 15 inches, generally remaining green all winter. It is easily grown; the crown should be planted just above the surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Hayscented Ferns. (*Dennstedtia punctiloba*)

—R—12 to 18 inches high. Will grow in sun or shade if planted in rich porous soil. Plant 8 inches apart. It will soon form a compact mass of border along the walk. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Lady Fern

Interrupted Fern. (Osmundo Claytoniana)

—ROS—Unlike the other Osmundos, it prefers a moderately or even dry thicket clad hill, in deep ravines and stony places generally, even in open sun. It is popular for porch or foundation planting. It grows where most other varieties will not thrive. Each 25c, 3 for 70c, 10 for \$2.00—Prepaid 1 for 40c, 3 for \$1.00, 10 for \$3.00.

Lady Fern (Athyrium felix faemina)

—ROS—A large, handsome fern, standing from one to three feet in height. A wood and roadside fern, doing well in all parts of the country and presenting many varying forms. Plant in sun or shade with crown just below surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$1.75.

Leathery Wood Fern (Dryopteris marginale)

—RS—The principal cultural requisite is shade. It even does well in Pine and Hemlock groves or on rocky hillsides. The leathery fronds are a dark blue green color. 12 to 30 inches high. Its natural associates are Jack-in-the-Pulpit, Wood Anemone, Hepatica and even yellow Lady Slipper. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$1.75.

Maidenhair Spleenwort. (Asplenium tricomanus)

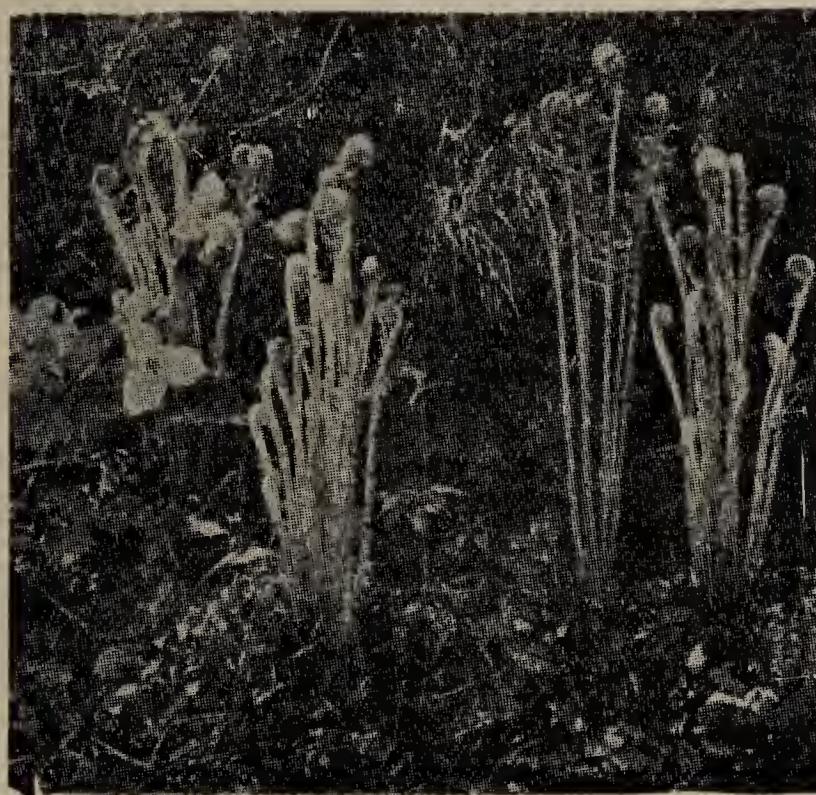

—R—A small rock fern, 4 to 10 inches with purplish-brown shining stalks. Each 50c—Prepaid, each 60c.

Marsh Fern. (Dryopteris thelypteris)

—M—Marsh fern seems to flourish in either sub-acid or neutral soil and is also indifferent as regards to sun or shade. The roots should be covered with not more than half an inch of leaf mold, compost, muck or pulverized peat. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for 1.75 10 for \$1.25—Prepaid, each 30c, 3 for 70c, 10 for 1.75.

Ostrich Plume Fern.

—RS—Grows from a crown with fronds from three to five feet tall, six to ten inches wide. A very erect handsome species, graceful as a palm. One of the most satisfactory for the amateur, always giving satisfaction in the open or shady nook. Use leaf mold or well rotted peat and it will multiply by underground runners, especially so in moist, sandy or peat soil. Plant the crown level with the surface and mulch in winter. This magnificent plant luxuriates in soil subject to an annual overflow. Its vaselike masses of foliage suggests the Cinnamon Fern, but the fertile fronds are dark green and it is also the tallest of our ferns, and should be planted well back in the shrubbery. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Unfolding of the Osmundos

Polypodium Common. (Polypodium Vulgare)

—R—Fronds four to eight inches forming a dense mass, clinging to rocks and boulders on steep hillsides. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 70c, 10 for \$1.75.

Royal Fern. (Osmunda Regalis)

—M—Pale green fronds, 3 to 3 feet. It can also be grown in still water 2 to 3 inches deep. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Sensitive Fern. (Onoclea Sensibilis)

—RMO—Grows from 6 to 36 inches high, according to moistures doing best in rather moist places. Plant 12 inches apart and cover crowns with one-half inch of soil. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Toothed Wood Fern. (Dryopteris spinulosa)

—M—Evergreen fronds one to three feet tall. Plant crown level with surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 50c, 10 for \$1.75.

Walking Leaf Fern. (Camptosorus rhizophyllus)

—R—A little low, creeping fern with evergreen fronds 4 to 9 inches long. Interesting and quite easy to grow in the rock garden. Each 25c, 3 for 60c, 10 for \$1.50—Prepaid, each 35c, 3 for 90c, 10 for \$1.75.

Winged Wood Fern. (Dryopteris hexagonoptera)

—RSM—A very fine little fern for moist and dense shady places where it will spread. Fronds from 3 to 4 inches. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 35c, 3 for 90c, 10 for \$1.75.

Woodsia Ilvensis (Rusty woodsia)

—R—This odd but extremely attractive fern grows in clumps on exposed summits and steep cliffs, in full sun. Very rare. Each 50c—Prepaid 60c.

Woodsia Obtusa.

—R—Is at home on shady ledges. Fronds 6 to 15 inches. Each 50c—Prepaid 60c.

Ebony Spleenwort (Asplenium Ebeneum)

—R—A lovely little rockfern with blackish shining stalks. Fine for rock and wall gardens. 8-12 in. Each 50c—Prepaid 60c.

Grape Fern (Botrychium Obliquum)

A novel little fern for woodland or open. Its companions are usually the Christmas fern, Shield ferns and Maidenhair ferns. Each 50c—Prepaid 60c.

Peat Moss or Pulverized Peat

Practically the same as imported German or Holland peat moss except it is not dried or baled. We have acres of it on our land and use loads and loads of it as a mulch and to mix in soil for acid loving plants such as ferns, arbutus, bearberry, gentians, and many others.

It is an excellent mulch on heavy soil where it preserves moisture and prevents cracking of the soil. We offer this pulverized peat as it comes from the ground in sacks of about 100 pounds for \$1.50, or sacks with about 50 pounds for \$1.00. Should be shipped only by freight.

• • •

Plants and Seed Not Listed

In addition to the varieties listed, we are in a position to supply almost any plants, wild or cultivated. We are connected with collectors of native plants in all parts of the United States. We are also in position to supply seed of many of our native Minnesota plants. If interested in any such seed send us your list in the Spring as we do not collect more seed than are needed for our own seedbeds and such quantities as may have been ordered. Seed gathering begins in June and continues throughout the Summer and Autumn.

Rock Garden

Rock Garden Plants

Wild and Perennial Plants

HOW TO SELECT PLANTS FOR SPECIAL PLACES

Plants which will do best or well in shade or half shade, in a little nook by the porch, shut away from sunlight, on the north side of the house, among the larger shrubbery in the border, are marked with the letter (S).

Plants specially adaptable for rockeries are marked (R).

Plants that prefer open sunny situations are marked (O).

Plants which prefer plenty of moisture are marked (M).

Plants specially adapted for the border are marked (B).

Plants that are of spreading or trailing habit, marked (T).

Plants specially adapted for cut flowers are marked (C).

Plants specially adapted for wall gardens are marked (W).

NEW VARIETIES. You will find 50 varieties not listed before; they have come from all parts of the world and are looking for a permanent home.

Orders for less than three of a kind add 5c for each plant. For 25 of a variety figure at Ten Rate and deduct 10%. For 100 of a variety figure at Ten Rate and deduct 20%, or write to us for special prices stating varieties you are interested in.

ACHILLEA (Milfoil or Yarrow)	3	10
—R—ageratoides. A pretty alpine of compact habit,		
Yellow sweet scented40	\$1.40
—filapendulena. This fine plant from the Caspian sea		
grows 2 to 3 ft. high, bright yellow flowers, flat		
heads and lacelike foliage40	1.20
—filipendulena, Parkers Variety, clear yellow.....	.40	1.00
—millifolium roseum. Rosy pink flowers in dense		
heads. July and August.....	.40	1.20
—Perry's White. 1-2 ft. Large pure white flowers,		
broad overlapping petals. Best yet for cutting....	.40	1.20
—C—ptarmica (the pearl), pure white, double flowers		
all summer50	1.40
—B—boule de niege. More compact than the Pearl,		
2 ft. Excellent for border50	1.40

ACONITUM (Monkshood)

—B—fischeri. This is the hardest and most useful		
of the aconites75	2.00

—Sparks variety, dark blue.....	.75	2.00
---------------------------------	-----	------

ACTEA (Baneberry)

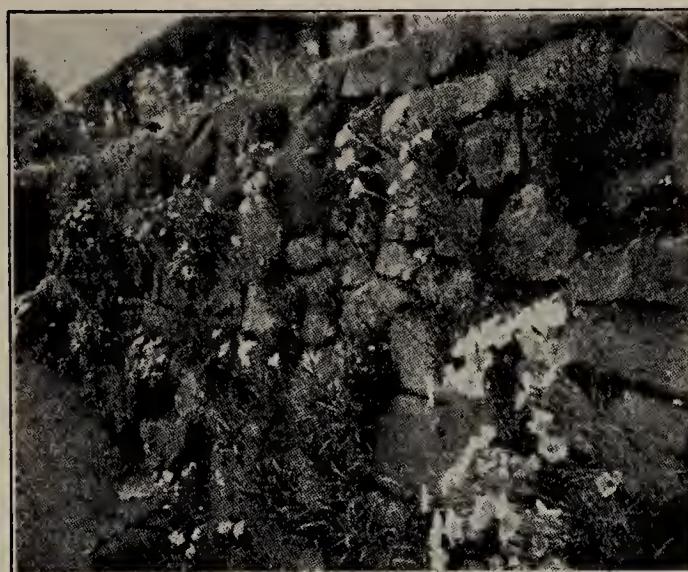

—RS—Alba. Long spikes of clear white flowers and		
berries. 12 to 18 in. in May-June. Fine for rock-		
ery or shaded woodland.....	.75	2.00

—RS—rubra. Red form of above.....	.75	2.00
-----------------------------------	-----	------

If perennials are wanted by prepaid parcel post add
15c for 3 plants, 30c for 10 plants.

ACORUS CALAMUS (Sweet Flag)	3	10
—M—Sword shaped. Erect, thrives best in moist soil or shallow water50	1.40
AGROSTEMMA (Rose Campion)		
—coronaria, mullien pink. 2 ft., stout, erect, growing plants with silvery foliage.....	.40	1.00
ALLIUM THIBETICA		
—R—Flowers in clusters, lilac, mauve; excellent rock garden plant, 6-8 in. New.....	.40	1.20
ALSINE (Punifolia)	.75	2.00
ANCHUSA ITALICA (Bngloss)		
—R—For mass effect of brilliant blue, anchusa is unsurpassed. 4-5 ft.75	2.00

—RO—Album. Flower white with red center, for dry rocks, 4-6 in.40	1.00	
—aizoon, bright yellow flowers, 1 ft. July-Aug.40	1.00	
—asiaticus, yellow40	1.00	
—ewersie, gray-blue, trailing, 2 in.40	1.00	
—R—ibericum, pink and white. Toothed leaves, 6 in.40	1.00	
—kamschaticum, foliage variegated40	1.00	
—lydium, blue-gray, reddish stem, 3 in.40	1.00	
—pruniatum Fosterianum. Pretty glaucus, bluish green leaves of trailing habit with golden yellow flowers. 3 in.40	1.00	
—reflexum40	1.00	
—RT—sarmentosum. Excellent for rockeries and filling seams between rocks in wall garden40	1.00	
—R—sieboldie. Round, succulent, glaucus leaves75	2.00	
—R—sexangular. Very dark green foliage, yellow flowers40	1.00	
—spatulatum purpurea40	1.00	
—R—spectabilis, one of the prettiest, tall, growing species with immense heads of rose-colored flowers, Aug.-Sept.40	1.00	
—R—spectabilis, brilliant, a form of the preceding with bright amaranth-red flowers40	1.00	
—R—spectabilis, variegated foliage50	1.20	
—R—spurrium coccineum. A beautiful rose-crimson flowered form. July-Aug.40	1.00	
—R—stahli. Dwarf, compact foliage, turning to an attractive crimson towards fall40	1.00	
—R—stolonifera. Flat, succulent leaves with purplish-pink flowers in July-Aug.40	1.00	
—ternatum. A most satisfactory variety for planting in shade	1.00		
—guatamaliensis. Fine for bowls and specimen. Not hardy but recommended as worth while planting each year. A novelty75	2.00	
—multiceps. Very fine pine-like needles, very effective, dwarf habit. Probably not hardy75	2.00	
—confusion. Semi-hardy, broadleaved, many upright stalks. Very dwarf. Worthy of planting each year75	2.00	
SEMPERVIVUM (Houseleek).			
—R—arachnoideum, small cobweb houseleek40	1.00	
—R—alberti75	2.00	
—R—arenaria, small green rosettes75	2.00	
—R—brauni, attractive rosette-like plant60	1.60	
—R—fauconette, similar to brauni, finer and more delicate75	2.00	
—R—funki75	2.00	
—R—globiferum75	2.00	
—R—tectorum (Houseleek, Hen and Chicks)30	.75	
SILENE (Catchfly).			
—R—alpestris. Dwarf rock plant. Dainty pure white flowers in May-June40	1.00	
—A—asterias, crimson40	1.00	
—R—schafta (Autumn Catchfly). A charming border or rock garden plant with masses of bright pink flowers in July-Aug. 4-6 inches40	1.00	
SISSYRINCHIUM <i>Augustifolia</i> (Blue-eyed Grass).			
—RO—As one would suspect from the name, it has grass-like leaves and flowers that make one think of bright little blue eyes as they peep out75	2.00	
SMILACENA <i>racemosa</i> (False Solomon's Seal).			
—A beautiful woodland plant bearing its spirelike cluster of white flowers at the tip of the stem60	1.60	
SPERGULA <i>pisifera</i> , a hardy evergreen plant suitable for grass edging and rock work60	1.60	
STACHYS <i>alpina</i> (Alpine Betony)—R—Dark rose60	1.60	

8 10

STATICE LATIFOLIA (Sea Lavender)—R.

Tufts of leathery leaves and immense candelabra-like heads of purplish-blue, minute flowers. If cut and dried will last for many months, valuable for border or rockery. July-Aug. .60 1.60

THALICTRUM (Meadow Rue).

—RB— <i>adiantifolia</i> (Maidenhair Meadowrue), foliage like maidenhair fern	.75	2.00
— <i>aquilegiafolia</i> . Graceful foliage, rosy purple flowers. June-July. 2 ft.	.75	2.00
— <i>dipterocearpus</i> . Flowers charming shade of lilac-mauve. 4 ft.	.75	2.00
— <i>polyganum</i> (Tall Meadow Rue). We find the inst-like flowers on stems 3 ft. and up according to height of surrounding growth. June-Sept.	.75	2.00

THYMUS serpyllum (Mother of Thyme or Creeping Thyme).

These charming plants from the White Mountains are a wonderful sight when they are literally covered with flowers. Excellent as ground cover for spring flowering bulbs. June-July.

—R— <i>album</i> . Forms dense mats of dark green foliage and clouds of white flowers. Fine creeper to run over rocks	.40	1.00
—R— <i>coecinum</i> . Similar to above with crimson flowers	.40	1.00
—R— <i>lanigunosum</i> . Wooly foliage with bright pink flowers	.40	1.00
—R— <i>serpyllum splendens</i> . A rapid growing variety, very hardy	.40	1.00

TIERELLA cordifolia (Foam Flower). White flowers

.50 1.20

TRADESCANTIA virginica (Spiderwort). Produces

succession of flowers all summer. 2 ft. .75 2.00

—Bracteata	.75	2.00
------------	-----	------

TRILLIUM grandiflorum (Wood Lily or Wake Robin).

—RS—Probably the prettiest of the genus. Large white flowers, turning to lilac. Excellent for massing in shade or in groups among shrubbery. 8-15 in. \$5.00 per 100	.35	.80
--	-----	-----

TRITOMA pfizeri (Red Hot Poker)—R.

.50 1.20

TROLLEUS europeus (Globe Flower)—M.

Free blooming plant, buttercup-like blossoms. 1-2 ft. May-Aug. .90 2.40

TUNICA saxifraga alba (Coat Flower)—R.

A prettily tufted plant with white flowers. Blooms all summer .60 1.60

UVULARIA perfoliate (Wood Merry Bells).

—RM—Its long pendant-shaped flowers are slightly fragrant. May-June. 6-12 in.—R	.60	1.60
---	-----	------

VERBENA VENOSA—R—A creeping plant in bloom all summer. Flowers purplish-blue in profusion...

.60 1.60

VERONICA amethystina (Royal Blue)—R.

Beautiful spikes of gentian blue flowers, 10-15 in. Splendid for border or rock garden

.40 1.00

—R— <i>candida</i> . White wooly plant, blue flowers, 1 ft. July-Aug.	.60	1.60
---	-----	------

—R— <i>rupestris alba</i> . A fine prostrate variety for the rock garden and ground cover. Covered with white flowers in May-June	.60	1.60
---	-----	------

—R— <i>rupestris nana rosea</i> . Similar to above, except flowers are pink	.75	2.00
---	-----	------

—R— <i>rupestris flexulosa</i> . Forms a solid carpet of green. Covered with pale blue flowers April-May	.75	2.00
--	-----	------

—R— <i>rupestris</i> . Heavenly blue, similar to Ver. alba, except flowers are blue, May-June	.75	2.00
---	-----	------

—R— <i>rupestris</i> . True blue. Covers itself with blossoms of intense blue. 12 in.	.75	2.00
---	-----	------

—R— <i>teucrium</i> . Dwarf spreading, blue flowers. May-June, 6-12 in.	.75	2.00
---	-----	------

If perennials are wanted by prepaid parcel post add
15c for 3 plants, 30c for 10 plants.

		3	10
—BC—subsessiles (Clump Speedwell). 2 ft. Spikes completely covered with blue flowers in July-Sept. 2 ft. Fine for cutting60	1.60	
—RB—spicata (Spike Speedwell). Dwarf, blue flowers, June-July. 18 in.60	1.60	
—R—repens (Creeping Speedwell). A very compact little rock plant or ground cover. 2-4 in.60	1.60	
VINCA MINOR , creeping evergreen plant. Blue flowers, excellent groundcover in shade.60	1.60	
VIOLA CORNUTA (Tufted Violet). These are some of the best edging plants for the hardy border and rockery. With proper care they will remain in full bloom all summer.			
—admiration, deep violet flowers20	.50	
—blue perfection20	.50	
—bosniaca, a superb, everblooming viola, dainty reddish-violet flowers20	.50	
—Jersey Gem, long stems. Best for cut flowers75	2.00	
—lutea, golden yellow20	.50	
—Lord Beaconsfield25	.60	
—G. Wermig, rich violet-blue flowers on long stems60	1.60	
—white perfection20	.50	
—W. H. Woodgate40	1.00	
VIOLA (Violet).			
—blanda. Sweet scented white violet60	1.60	
—M—cuculata (Blue Violet). A beautiful, variable species, deep purple to light blue. Blooms in the greatest profusion from early May to Aug.30	.75	
—odorata (Sweet English Violets)60	1.50	
—palmata (Early Blue Violet)60	1.50	
—R—pedata (Bird's Foot Violet). These flowers are blue, violet or purple and have a bright orange center40	1.00	
—bicolor (Two-colored Bird's Foot Violet). A strikingly beautiful little violet that deserves a place in every garden. Must be seen to be appreciated.75	2.00	
—pubescens (Downy Yellow Violet)60	1.50	
—rugulosa (White Wood Violet). Fine ground cover under shrubs or for children's garden. Blooms all summer60	1.50	
—sagittata60	1.50	
VIOLA TRICOLOR (Pansy). Our international strain is unsurpassed for size of bloom and color combinations. \$4.00 per 100.50
YUCCA filamentosa (Adam's Needle)—R. Large rosettes of swordlike evergreen leaves, and spikes of white flowers. Each 25c.60	1.60	

ORNAMENTAL EVERGREENS

The Evergreens here listed are varieties which have proved hardy in this northern latitude. We offer them in two grades: "Select Specimen," which are as near perfect in shape as nature plus proper care can grow them and "Windbreak," which have some slight defect in shape, otherwise just as healthy as select specimen. The windbreak grade are well adapted for group, woodlot or shelterbelt planting. Usually they will outgrow their slight defects in a few years. We recommend them very highly for general planting.

A glance at our prices will convince you that now is the time and here is the place to purchase evergreens.

On order for 5 or more of same variety and size, 5% discount will be allowed.

On order for 10 or more of one variety and size, 10% discount will be allowed. These prices do not apply to trees personally selected in the Nursery. These will be charged for at somewhat higher prices.

All trees are dug with good earth ball on roots and securely tied with burlap.

		Select Specimen	Windbreak
		Each	Each
ABIES BALSAMEA (Balsam Fir) B & B.			
18—24 in.		\$1.00	\$0.60
24—36 in.		1.50	.85

EVERGREENS

For Hedges, Windbreak, Woodlot and General Planting

In this section are offered smaller evergreens handled with bare roots. These trees are fine, sturdy stock, handled carefully and dug to each individual order. Roots are puddled in mud and packed in wet moss. They have been once or more times transplanted and have well developed root systems. We offer them in lots of 10, 25 and 100. No selection for shape or color will be considered, but we guarantee that the trees shipped out will satisfy. They are exactly the same grade and quality which we transplant to develop into specimen trees. At the prices we offer them you can afford to plant now.

Raspberries

Chief, originated at the Minn. Fruit Breeding Farm, a very heavy yielding strain about ten days earlier than Latham. Much more resistant to mosaic and other diseases than any other variety. Fruit is somewhat smaller than Latham, but of fine flavor and an excellent shipper. We recommend the Chief very highly. Price per 25, \$1.00; 100 for \$3.00; 1,000 for \$20.00.

Latham, also originated at the Minn. Fruit Breeding Farm. A Raspberry of outstanding qualities. A heavy yielder, fruit very large and fine flavored. Very highly recommended. Should be planted at some distance away from wild Raspberry plants as it is quite susceptible to mosaic, a disease commonly afflicting wild plants. Price per 25, \$1.00; 100 for \$3.00; 1,000 for \$20.00.
